I am delighted to know that the cartographic materials and information have been useful. In response to several other inquiries in your letter of 23 January 1958, I am including three technical booklets, a collection of selected "Zip-a-tone" patterns, a "Zip-a-tone" chart, several brochures describing scribing instruments, and several samples of scribing materials and their accessory papers. I hope that these materials will be of help to you in solving some of your immediate cartographic problems.

If other questions arise, please forward them and we shall do whatever we can to supply information or sources of information.

[Sincerely,]

~~OTTO E. GUTHE~~
Assistant Director
